This release addresses the following issues:

This release note describes the system corrections (as reported by Customers) and new enhancements, if any, made in BASSnet 2.10 SP1 carried out in the Hotfix 2-220 patch released on 15th September 2023.

Changes/fixes have been implemented in the following modules:

Projects   Procurement

Recent Changes

1. **Projects**

   ❑ [78433] Resolved an issue on the Project Cost Control screen where Purchase Orders tied to the project were not appearing under the Requisition & PO tab if the Project does not have a section record.
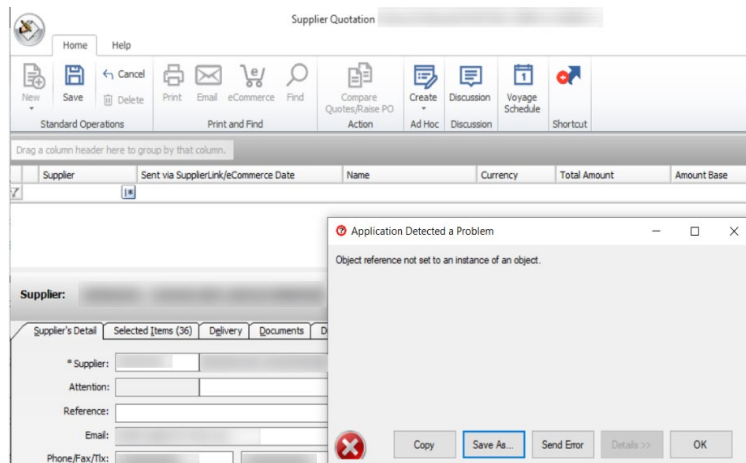

2. **Procurement**

   ❑ [78473] Resolved an issue where the **Invoice Approval** Email Alert Notification displayed 'Unknown Item' for invoices that are not connected to any Purchase Orders.

❑ [78987] Improved system performance when removing Project PO with a large number of tasks from the **Invoice** screen.

❑ [78771] Resolved an issue on the **Compare Quotes** screen that caused certain selected items to be de-selected after clicking **Approve**. This also caused the below error to incorrectly appear when checking the items on the **Supplier Quotation** screen.
❑ [78954] Fixed an error that appeared when creating a quotation from a partial contract requisition that contains any non-contract item with 0 quantity.
