# **Enhancements (CRs)**

#### 1. Personnel & Fleet

[CR 14889, 14891] A new system configuration 'CNPNSHOWORHIDEHRM' is now available where, if enabled (Primary Value = Y), the system will display onboard training & drills records from both SAFIR and HRM on the Fleet/Personnel – Onboard Training and Drills screen and in the Personnel – Profiles screen – Onboard Training/Drills tab.

Furthermore, if the configuration's Secondary Value = 1, users will be able to create/edit onboard training & drills from HRM, even if the SAFIR license is enabled.

(Previously, if the SAFIR module was enabled, only onboard training & drills records from SAFIR were displayed and users were unable to create/edit records in HRM.)

### 2. Training

- □ [CR 14886] The Training lookup on the following screens will now show all training records in the register, including training records from Seagull:
  - o Manning Requirements
  - Crew Training
  - Training Centers
  - Training Requirements
  - Training Requests
  - Training Planner

### **Fixes**

### 1. Fleet

□ [79232] Resolved an issue when searching for vessel(s) on the Vessel Particulars page where the list of vessels did not display as expected in the Global List drop-down.

### 2. Personnel

□ [79181] Resolved an issue where a training/drill was incorrectly assigned to a crew member and appeared in their profile under **Training & Drills** even though they did not participate in the training/drill.

### 3. Planning

□ [79249] Fixed an error that appeared on the **Planning Overview** screen due to the crew having overlapping **Valid From** and **Valid To** dates on their **Wage** screen. After this fix, crew activity records will be displayed even when there are overlapping dates.
