This release addresses the following issues:

This release note describes the new enhancements and system corrections (as reported by Customers), if any, made in BASSnet HR Manager 2.11 SP2 carried out in the Hotfix 2-030 patch released on 15th December 2023.

Changes/fixes have been implemented in the following modules:

[Fleet](#)

[Planning](#)

Recent Changes

1. Fleet

- [79663] Resolved an issue on the **Check Compliance** screen where the system was not displaying the latest expiry date for a license when the crew member held multiple licenses with a higher sort sequence number.

2. Planning

- [79667] Resolved an issue on the **Planning Overview** screen where the **Missing Contract** icon was displayed even though the crew already had a contract/CBA assigned.

- [79775] Fixed an error that appeared when attempting to open a Planned Crew Change record due to multiple activities having the same reliever. When setting a reliever on the **Planning Overview** or **Planned Crew Change** screens, the system will now validate if the reliever is already tied to any crew's activity.
