# **Table of Contents**

Enhance	ments	2
1.	Common	2
2.	Planning	2
3.	Reports	2
Fixes		3
1.	Personnel	3
2.	Payroll	3

## **Enhancements**

#### 1. Common

- [CR 15130] The following two config keys have been introduced to support the document upload feature in the system.
  - CNPNUPMGR\_FILEFORMAT: To specify the supported formats of attached files. Using this config key, the system will prompt a message to let users know if the file upload has failed and to check that the file extension is allowed because the system has detected an unsupported file format.
  - CNPNUPLOADMAXFILESIZE: To specify the file size limit of attachments. Using this config key, users with privilege can set the maximum file size allowed in the Primary Value field. If the file size has exceeded the set limit, the system will prompt a message to let users know that the file upload has failed and to check that the file size is below the limit.

## **Fixes**

#### 1. Personnel

[80519] Resolved an issue where users failed to approve the Beneficiary of a crew member if a previous Beneficiary record with the same name and relationship was created before and rejected.

This issue occurred because of a new system logic that incorrectly flags the creation of new beneficiaries even though previous records with the same name and relationship have been deleted.

#### 2. Payroll

- [80448] Resolved an issue on the Crew Opening Balance screen where the crew's Open Amount in crew currency was incorrectly calculated if the crew does not have any assigned wages.
- □ [80609] Fixed an error that appeared on the **Crew Payroll** screen when searching for records with Activity CBA setup.

□ [80465] Resolved an issue where the CPF calculation was incorrect when a crew member's basic pay amount is 0.

**Note**: CPF is only applicable to Singaporean crew members.
