Customer Support:	For more information or support, please visit our website http://www.bassnet.no/

This release addresses the following issues:

This release note describes the system corrections (as reported by Customers) and new enhancements, if any, made in BASSnet 2.10 carried out in the Hotfix 3-207 patch released on 23 Aug 2024.

Enhancements/fixes have been implemented in the following modules:

Materials   SAFIR, Reviews & Improvements

Recent Changes

1. **Materials**

   ❑ [82261] Resolved an issue on the **Material Forecasting** screen where the system incorrectly used the material's last price exchange rate instead of the company's exchange rate to calculate the costs. This also applies when multiple vessels are selected.

2. **SAFIR, Reviews & Improvements**

   ❑ [82265, 82409] Resolved an issue where the system incorrectly duplicated attached documents when updating a record that was created from a template that included the document attachments.

   Note: This issue only occurred for records created in previous versions of BASSnet, and subsequently updated in later versions.
