### Recent Changes

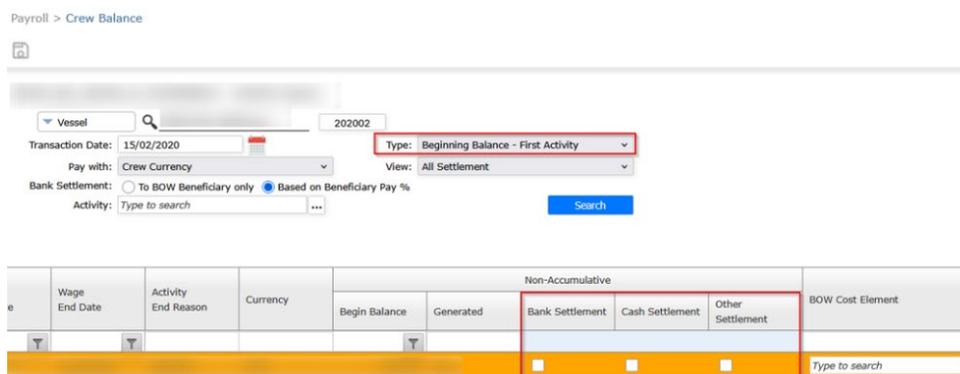

#### 1. Payroll

- ❑ [85470] Resolved an issue on the **Crew Balance** screen where the Available Balance (before clearing the open amount) was incorrectly calculated as 0 when the crew had another activity in the account period. This caused the system to prevent users from clearing open amounts due to insufficient balance.

The Available Balance will now be calculated excluding Transfer Amount to ensure that the amount is cleared as long as the Available Balance for the current month is more than 0.

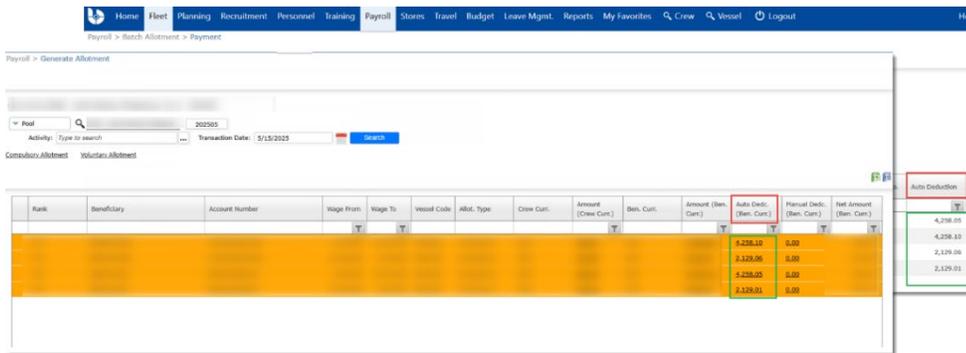

$$\text{Open Amount} + \text{Earnings} - \text{Deductions} < \text{Amount to be Cleared}$$

**Note:** This issue only applies to the “Beginning Balance – First Activity” type and the 3 non-accumulative settlement types.

- ❑ [85255] Resolved an issue on the **Batch Allotment – Payment** screen where the system incorrectly prorated the amount by the number of SAIL activities in the month. This caused the Auto-Deduction amounts in the Batch Allotment to be incorrect and do not tally with the amounts in Generate Allotment.

The calculation of auto-deduction for Batch Allotment have now been synchronized with Generate Allotment, regardless of whether the allotment type for beneficiaries is the same.
