### This release addresses the following issues:

This release note describes the system-bug corrections (as reported by Customers) and new enhancements, if any, made in BASSnet 2.10 carried out in the Hotfix 3-202 patch released on 28th July 2023.

Changes/fixes have been implemented in the following modules:

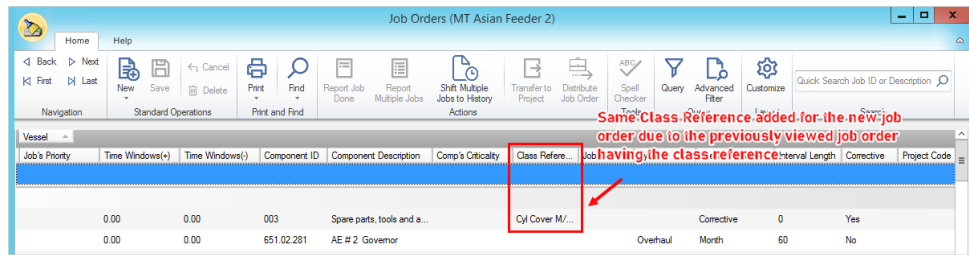

[Maintenance](#)

### Recent Changes

#### 1. Maintenance

- ❑ [Defect 78231] Resolved an issue on the **Find** grid of the **Job Orders** sub module, where the **Class Reference** of a previously viewed job order was added to a newly created job order if the new job order was created and edited directly after viewing the previous job order (clicking the **New** button on the same screen).

This issue occurred because the Class Reference of the previously viewed job order was cached and not cleared upon creating the new job order.
