## Enhancements (CRs)

### 1. Home & Administration

- ❑ [CR 15090] The **Bank Register** has been updated from storing Bank Account-level information to only storing Bank-level information by removing the following fields:
  - **Bank Group**
  - **Bank A/C No.**
  - **Currency**
  - **Company Bank Code and Description**

This change aligns with previous enhancements to the **Address Register**, whereby the **Bank** field under the **Bank/IMPA** tab was changed to a lookup field that is linked to the **Bank Register**.

- ❑ [CR 15129] The following two config keys have been introduced to support the document upload feature in the system.
  - **CNPNUMGR\_FILEFORMAT:** To restrict unsupported file format attachments, such as .exe files. Using this config key, the system will prompt a message to let users know that the file upload has failed and to check that the file extension is allowed.
  - **CNPNUPLDLOADMAXFILESIZE:** To restrict files that exceed the file size limit from being uploaded into the system. Using this config key, users with privilege can

set the maximum file size allowed in the **Primary Value** field. If the file size has exceeded the set limit, the system will prompt a message to let users know that the file upload has failed and to check that the file size is below the limit.

## 2. Fleet

- ❑ [CR 15100] On the **Crew Lists** screen, the reliever's **Passport Number**, **Seaman Book Number**, and **Nationality** columns are now displayed.

## 3. Personnel

- ❑ [CR 15137] The **Training Topic** field on the **Training Record Books** screen will now display long topic descriptions without the scroll bar so that users can view the whole description without scrolling.
