This release addresses the following issues:

This release note describes the system-bug corrections (as reported by Customers) and new enhancements, if any, made in BASSnet Crew Portal 1.2 carried out in the Hotfix 2-000 patch released on 9th April 2024.

Enhancements/fixes have been implemented in the following modules:

General

Recent Changes

Enhancements

1. **General**

❑ [CR 15160] The App now supports setting the maximum allowable size for uploaded files via **Global Settings** in BASSnet, using the **CNPNUPLOADMAXFILESIZE** key.

Admin users (with access to Global Settings) can set the maximum file size allowed for attachments in the **Primary Value** field. The specified file size limit will take effect in BASSnet HR Manager, which will also be reflected in the App. When users upload attachments that exceed the set file size limit, the App will prompt a message to let users know that the file upload has failed and to check that the file size is below the limit.

Note: Without BASSnet installed, the maximum file size limit can only be configured at the backend.
