## Table of Contents

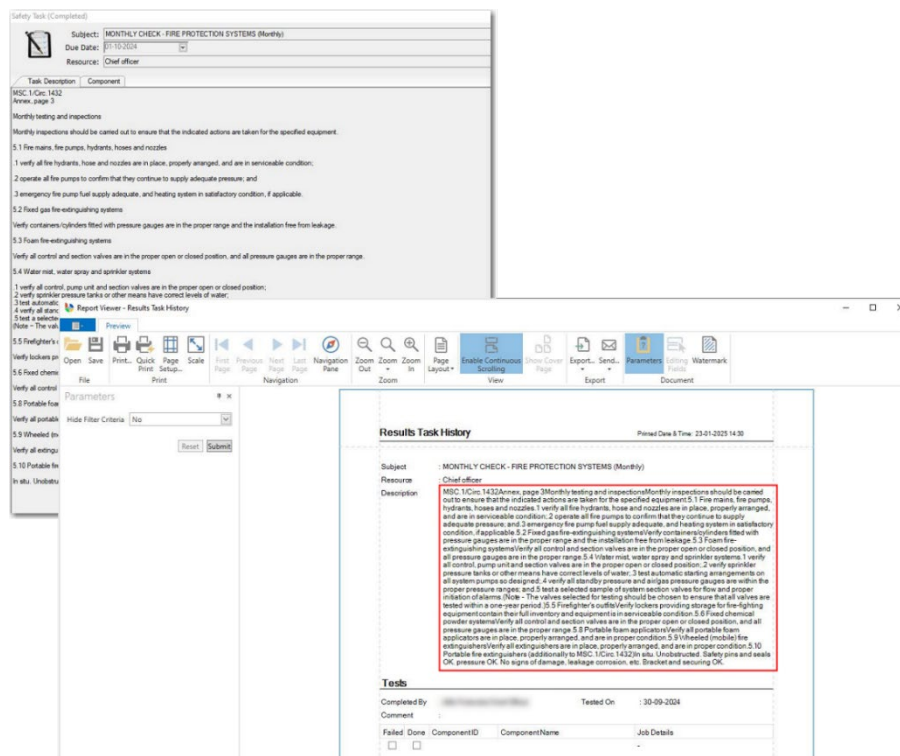

<b>Fixes .....</b>	<b>1</b>
1. Maintenance .....	1
2. Procurement .....	2

### Recent Changes

## Fixes

### 1. Maintenance

- ☐ [84532] Resolved a formatting issue in the Routine Task report that caused the **Description** section to display as a single continuous line without any line spacing, making the content difficult to read.

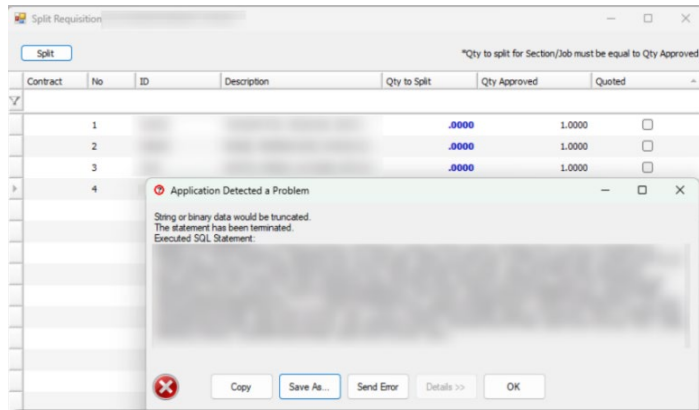

## 2. Procurement

- ❑ [84444, 82360] Resolved an issue where no allocation trade was created in the database after using Transfer to Account on Invoices that were connected to Purchase Orders and include free items.
- ❑ [85019] Resolved an issue where approvers were able to approve Purchase Orders even though the Total Amount exceeded the user's monetary limit.

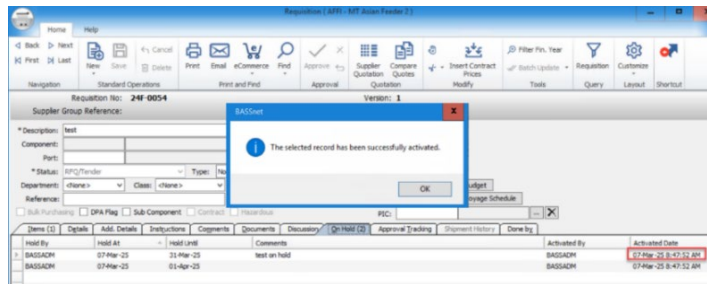

In addition, resolved an issue on the **Approval Setup** screen – **User** tab where the system allowed to create a setup with an existing combination of Approval Level and User.

1 - Office Configuration	2 - Approval Level	3 - Order Type	4 - By Order Type	5 - User	6 - Vessel	7 - Log
* Level	* User				* Monetary Level	
1	BASSADM					
1	BASSADM				BUYER	
1	BASSADM				P01	

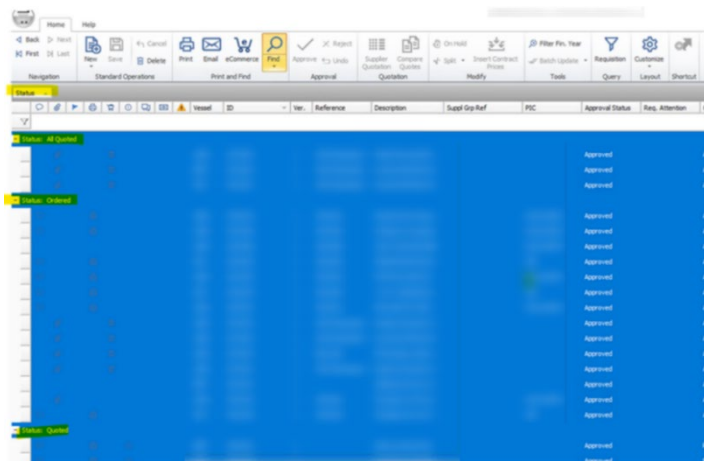

- ❑ [85018] Fixed an error that appeared when splitting Requisition or Purchase Order records for vessels in Distribution Groups where the ID exceeds the maximum length allowed in the database.

- ❑ [85017] Resolved an issue on the **Requisition** and **Purchase Order** screens – **On Hold** tab where the system incorrectly updated the **Activated By** and **Activated Date** columns after a document was added or a comment was inserted in the On Hold record. In addition, the **Activate** button was incorrectly disabled after saving the record.
- ❑ [85016] Resolved an issue on the **Requisition** screen – **On Hold** tab where the previous **Activated Date** was overwritten by the latest date after the Requisition record was reactivated again.

- ❑ [85015] Resolved an issue on the **Requisition – Find** screen where the right-click menu did not appear after selecting records with column grouping.
